Description: PBL 101 is BIE’s foundational three-day (consecutive, 7.0 hours per day, including lunch) onsite workshop. Based on BIE’s model of Gold Standard PBL, the workshop provides participants with the skills and knowledge needed to design, assess, and manage a rigorous, relevant, and standards-based project. The workshop models the project process. Facilitated by one of BIE’s expert National Faculty, the workshop is a balanced blend of direct instruction, video analysis, hands-on work, resource sharing, and peer collaboration and feedback. Participants are actively engaged in project design, with the expectation that every teacher or teaching team will generate a project plan that receives formative feedback from both participants and BIE National Faculty. All participants (limited to 35 per workshop) receive a free copy of BIE’s highly regarded PBL 101 Workbook, which is exclusively for PBL 101 participants and not sold separately.
